

Government of Belize
Press Release:

The Supplies Control Unit in the Ministry of Trade, Investment Promotion, Private Sector Development and Consumer Protection is hereby informing the general public that effective April 24, 2015 there will be a new price structure for the sale of Liquid Petroleum Gas (LPG).

The new controlled price per 100 lb cylinder for LPG imported by **Belize Gas Limited** and **Western Gas Company Limited** from PEMEX in Mexico will be as follows:

District	Existing Control Price	New Control Price
Belize City	\$92.00	\$90.00
Belmopan	\$94.00	\$92.00
San Ignacio	\$94.00	\$92.00
Benque Viejo Del Carmen	\$95.00	\$93.00
Orange Walk	\$93.00	\$91.00
Corozal	\$92.00	\$90.00
Dangriga	\$96.00	\$94.00
Punta Gorda	\$97.00	\$95.00

The controlled price per 100 lb cylinder for LPG imported by **Belize Western Energy Limited**, **Southern Choice Butane** or **Zeta Gas**, and **Gas Tomza Limited** from within Central America will be as follows:

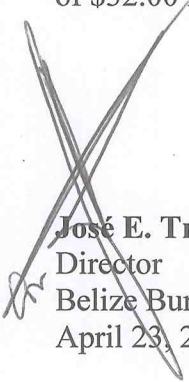

District	Existing Control Price	New Control Price
Belize City	\$90.00	\$88.00
Belmopan	\$92.00	\$90.00
San Ignacio	\$92.00	\$90.00
Benque Viejo Del Carmen	\$93.00	\$91.00
Orange Walk	\$91.00	\$89.00
Corozal	\$90.00	\$88.00
Dangriga	\$94.00	\$92.00
Punta Gorda	\$95.00	\$93.00

Domestic price per 100 lb cylinder for LPG distributed by **Belize Natural Energy Limited** and sold at its depots countrywide will be as follows:

Depot	Retail Price
Burrell Boom	\$87.00
San Ignacio	\$87.00
Belmopan	\$87.00
Benque Viejo Del Carmen	\$87.00

The general public is advised that the prices established for imported LPG are based on the mixtures of 60:40 (Propane:Butane) and 90:10 (Propane:Butane) respectively. A current production boom in North America has led to a downward pressure on oil derivatives including LPG. Consequently, acquisition prices have led to a decrease of \$2.00 on the 100 lb cylinder for both Central American importers and PEMEX. Compared to 2014 LPG prices are at an average of \$32.00 lower on the 100 lb cylinder.
